

THURSDAY  **POOLS**®

Your weekend starts early with us

FIBERGLASS POOL COLLECTION

The background of the entire image is a repeating pattern of horizontal, wavy blue lines on a white background. The waves are uniform in height and frequency, creating a rhythmic, water-like texture.

**We manufacture the industry's
most elegantly crafted and
durable fiberglass pools.**

Why Thursday Pools?

Take a moment to envision what would happen if a fiberglass manufacturer with over 35 years in the composites industry, including carbon fiber and Kevlar®, desired to manufacture the most elegantly crafted and durable fiberglass pools in the industry.

At Thursday Pools®, we aim to be the world's most respected fiberglass pool manufacturer. We believe passion, care and attention to details make the difference.

We strive to deliver innovative products that empower our customers to make a lifetime of extraordinary moments with their family and friends.

Goliath | California Finish

Features & Options

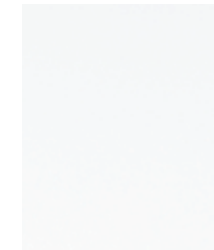

Get Your Color On

Choosing the Right Pool is Just the Beginning

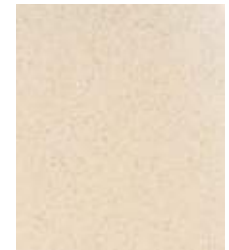

Your pool's interior surface will determine your water color. There are two basic colors of water: blue and green. Brown, tan and green surfaces will produce a green water color similar to the same reflection that sand gives in the Caribbean. White, blue and gray interior surfaces will produce a blue water color. The different hues of blue and green are determined by the shades of the surface interior, landscaping, sunlight and water depth. Keep in mind the lighter pool surfaces have a higher light reflection value, and will enhance LED light visuals and depth perception while minimizing water line build-up.

Fun Features

It is All About the Extras

Fun features like water slides, swim jets, water fountains, custom spillways, mood lighting, tile and infinity edges are all ways to incorporate your personal lifestyle into your backyard paradise. Features can help determine whether you are going to spend the weekend hosting elegant poolside soirees or unforgettable barbeques and parties. Maybe it's just the two of you, and you want to plan an atmosphere of bubbling water and relaxation. All the extras are easy to add to your fiberglass pool. Speak with your authorized dealer about your interests.

Color samples on this page may vary from the actual finished product.

Get Covered Up

Automatic Pool Covers Provide Safety First

Automatic Pool Covers[™]

Your beautiful pool will become your backyard sanctuary. Automatic pool covers help protect your paradise, along with those that matter most. In addition to the added security and peace of mind, owning an automatic safety cover will provide you with a more enjoyable pool ownership experience by reducing the amount of time, money and energy you will spend on pool maintenance. This is done by keeping debris out and chemicals inside.

Titus 33 | White Surface Finish

Why Fiberglass?

Benefits of Fiberglass

Thursday Pools Will Provide You With the Best Fiberglass Pool Available and Be a Resource Long After Installation

Fiberglass pools are an icon of beauty that can rival any concrete or vinyl-lined pool construction, but the surface beauty is just the beginning of why you should choose a fiberglass pool.

Here are just a few reasons:

- Handcrafted in a factory-controlled environment.
- Less maintenance and chemicals equals more free time for you.
- High-end design features like tanning shelves and benches come standard.
- Low lifetime cost of ownership. No replastering, painting or liner replacement.
- Pet-friendly surface and designs with multiple entry and exit points.
- Smooth surface won't snag swimsuits or cause scratches on your skin.

Nine Layers Of Strength

The Composite Sandwich of Awesomeness

Let's think of a fiberglass pool shell as a huge sandwich. A sandwich is a composite, which basically means it's made up of different materials. Each material is applied in layers with the goal of giving the entire sandwich maximum flavor.

Such is the case with a fiberglass pool, which is a composite. It's manufactured in multiple layers with each layer serving to maximize the strength and durability of the entire structure. In other words, our fiberglass pool is thought of as a sandwich of strength. Hence, we affectionately refer to our unique manufacturing methodology as our, Composite Sandwich of Awesomeness.

COMPOSITE
SANDWICH
OF AWESOMENESS

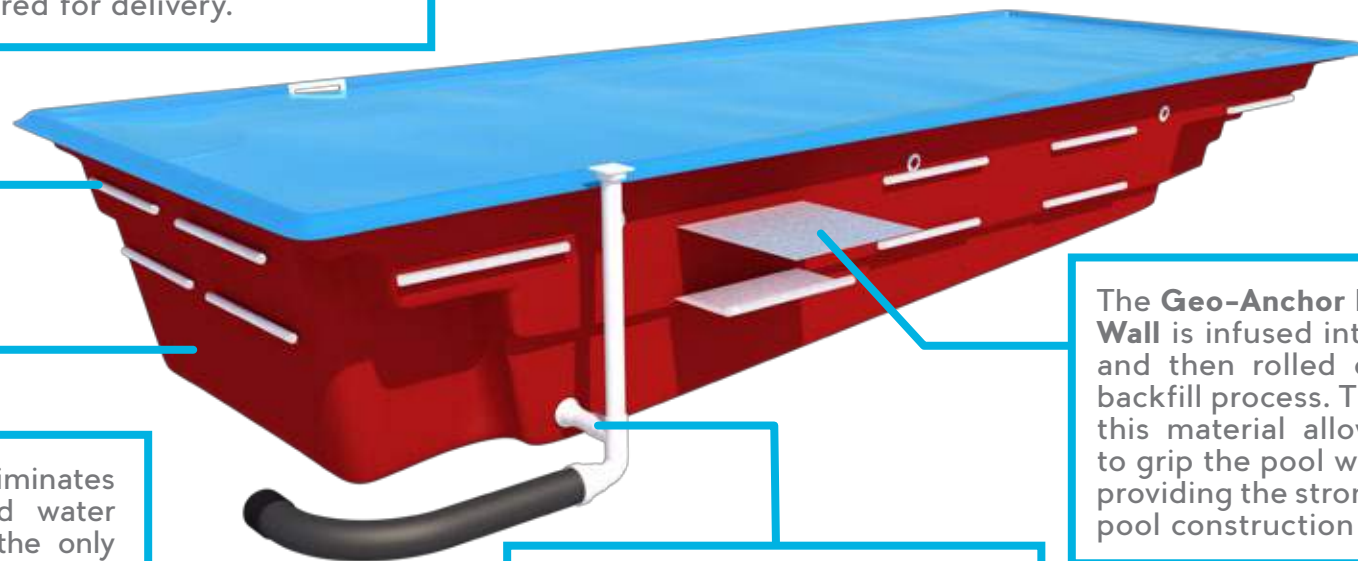

1. Gel coat.
2. Vinyl ester barrier coat.
3. First application of chopped fiberglass.
4. Second application of chopped fiberglass.
5. Hand-laid woven roving fiberglass.
6. Third application of chopped fiberglass.
7. Honeycomb core.
8. Fourth application of chopped fiberglass.
9. Fifth application of chopped fiberglass.

Fiberglass Pool Anchoring System™

Secure Your Investment

Our specially formulated geotextile material is infused into the pool wall during the manufacturing process. It is then rolled up and secured for delivery.

This optional system eliminates risks caused by ground water and provides you with the only fiberglass pool warranty that allows your fiberglass pool to be drained.

The **Geo-Hydro Valve** helps control outside ground water and prevents fiberglass pools from floating.

The **Geo-Anchor Fiberglass Pool Wall** is infused into the pool wall and then rolled out during the backfill process. The extension of this material allows the backfill to grip the pool wall to the earth, providing the strongest fiberglass pool construction available!
