

THURSDAY POOLS®

Your weekend starts early with us

FIBERGLASS POOL COLLECTION

The background of the entire image is a repeating pattern of horizontal, wavy blue lines on a white background, resembling water ripples. In the center, there is a white rectangular area containing text.

**We manufacture the industry's
most elegantly crafted and
durable fiberglass pools.**

Why Thursday Pools?

Take a moment to envision what would happen if a fiberglass manufacturer with over 35 years in the composites industry, including carbon fiber and Kevlar®, desired to manufacture the most elegantly crafted and durable fiberglass pools in the industry.

At Thursday Pools®, we aim to be the world's most respected fiberglass pool manufacturer. We believe passion, care and attention to details make the difference.

We strive to deliver innovative products that empower our customers to make a lifetime of extraordinary moments with their family and friends.

Large Size Pools

Goliath

Big and Beautiful

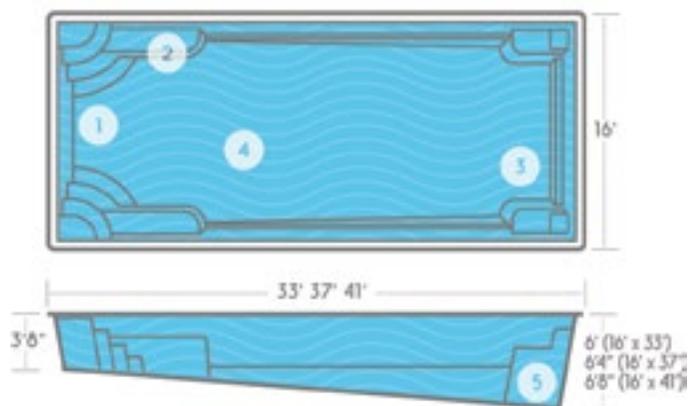

Pool Sizes

16' x 33'

16' x 37'

16' x 41'

- 1. Big and beautiful.** Its sheer size will make your neighbors envious.
- 2.** Non-skid surface on floor, stairs and benches.
- 3.** Dual corner entry steps with benches can accommodate most backyard designs.
- 4.** Swim lane.
- 5.** Dual, deep end benches with swim-out.

Aspen

Chill Out

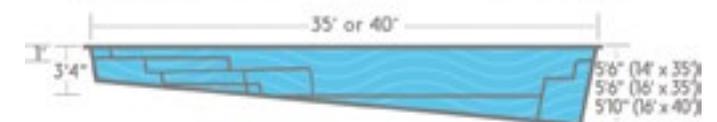

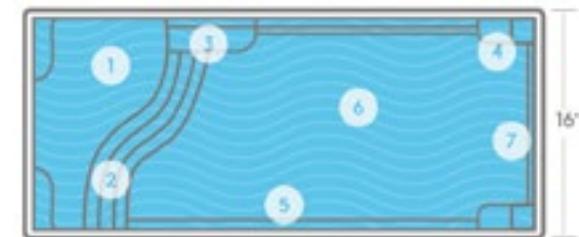

Pool Size

14' x 35'

16' x 35'

16' x 40'

- 1. Sunbathe.** Tanning ledge with 12"-depth. Perfect for ledge loungers.
- 2. Non-skid surface** on floor, stairs, benches and tanning ledge.
- 3. Sit.** Extended bench offers you a place to relax and unwind.
- 4. Dual swim out exits** and benches provided at the deep end of the pool.
- 5. Courtesy ledge** around deep end of the pool.
- 6. Swim.** Large open swim area for water activities.
- 7. Auto-cover ready.**

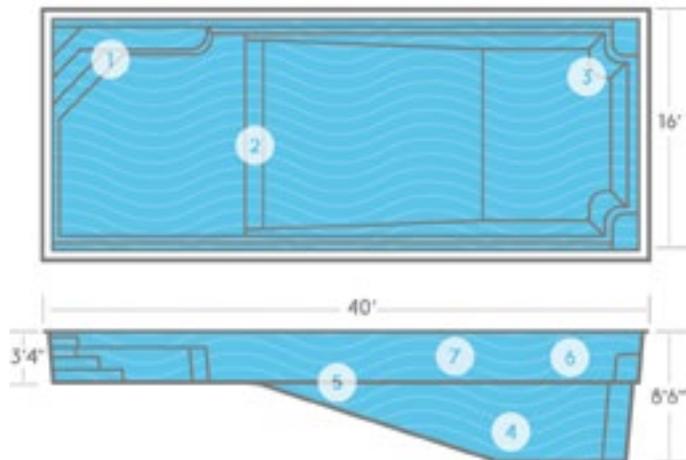

Monolith

Type 1 Diving Pool

Pool Size

16' x 40'

1. **Play.** Large flat-bottomed shallow-end is ideal for water games like basketball.
2. 15" warning slope. Warns children and adults alike that they are about to step away from the shallow-end.
3. Dual, deep-end seats with swim out.
4. **Splash.** Make a splash into this Type 1 Diving Pool.
5. Swim lane.
6. Non-skid surface on floor, stairs and benches.
7. Auto-cover ready design.

Medium Size Pools

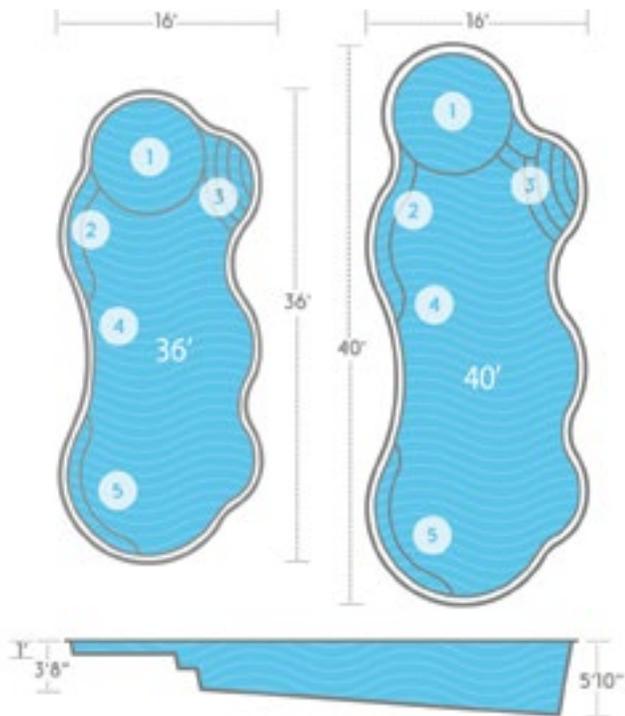

Wellspring

Your Private Paradise

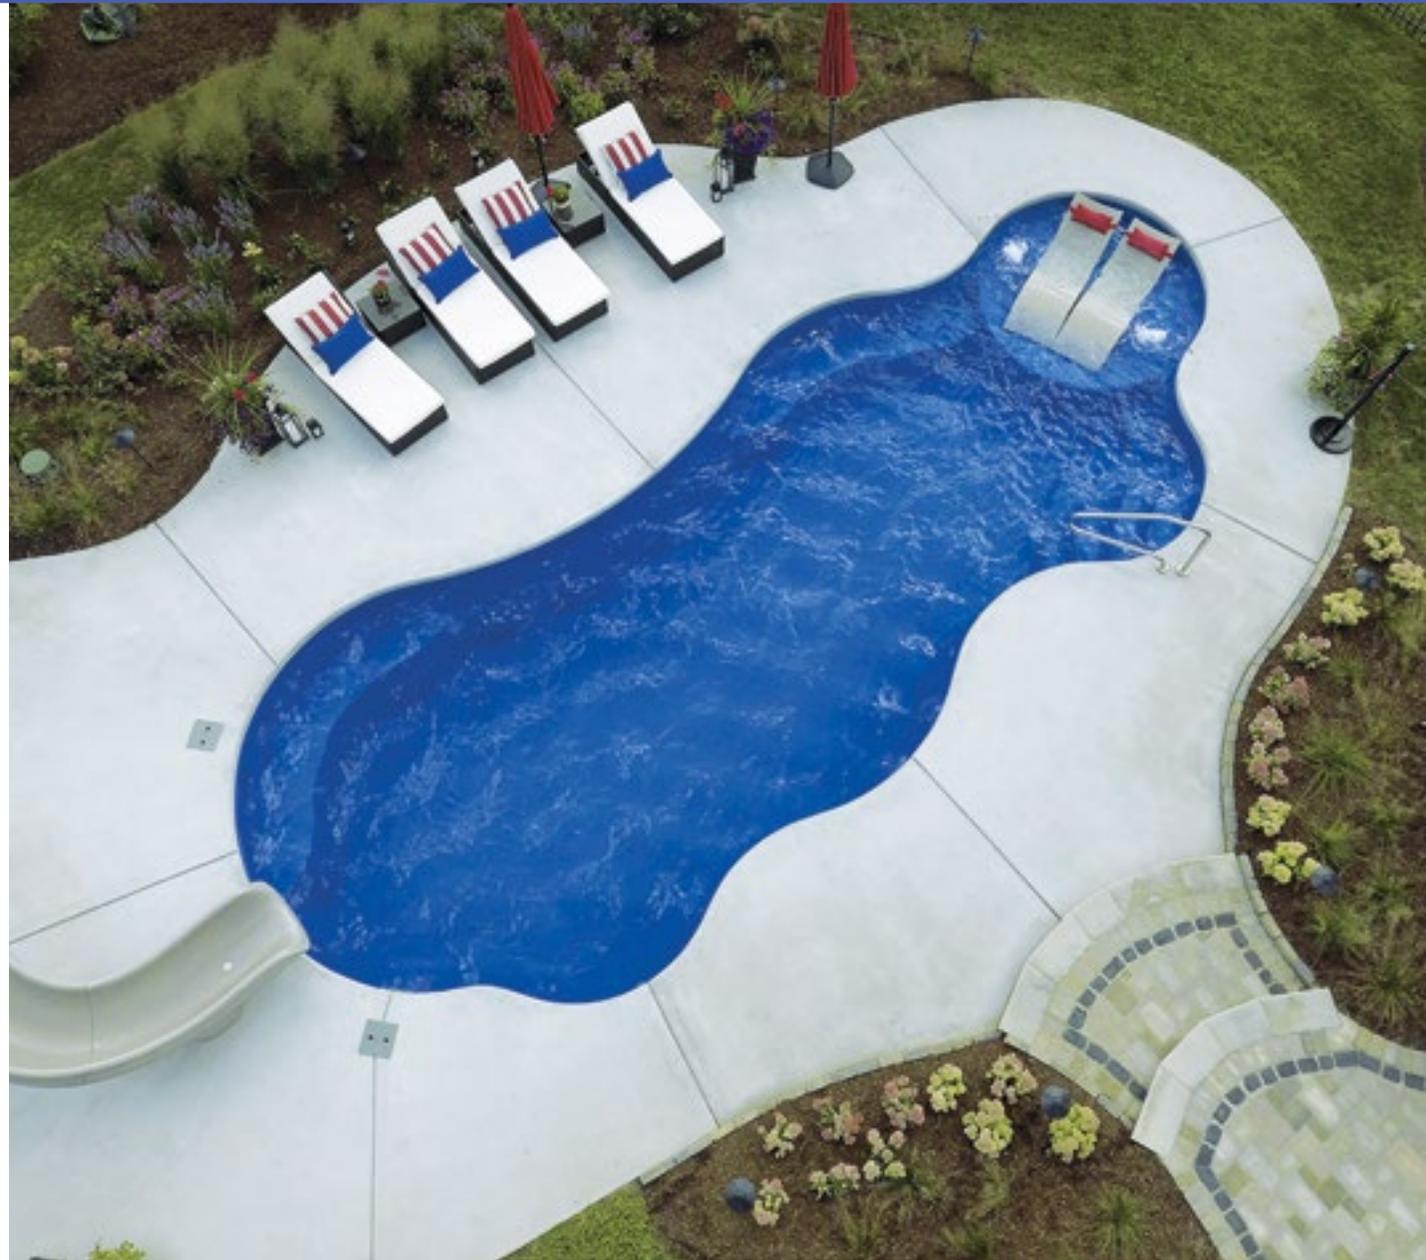

Pool Sizes

16' x 36' 16' x 40'

- Fun.** Extra-large sun shelf is ideal for loungers, bubblers, toddlers and more.
- Family time.** Share the wrap-around bench with family and friends.
- Expanded entry steps.**
- Non-skid surface on floor, benches, sun shelf and steps.**
- Sit and enjoy.** Soak on the deep-end bench and enjoy.

Cathedral

A Great Classic

Pool Sizes
14' x 33'

- 1. **Simple.** Classic design curves provide character without sacrificing swim area.
- 2. Non-skid surface on floor, stairs and benches.
- 3. **Stylish.** Dome-shaped entry with wide steps and bench area adds style and functionality.
- 4. **Soothing.** Go for a soothing soak on the bench in the deep-end.

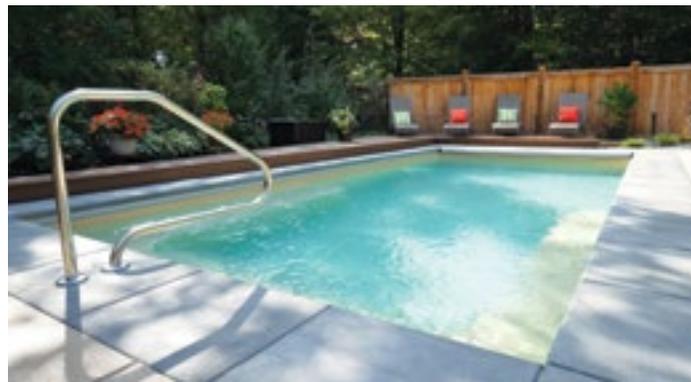

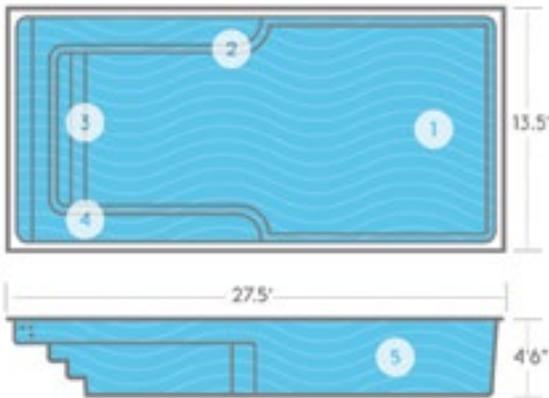

Lil Bob

For Friends & Family

Pool Size

13.5' x 27.5'

1. **Simple.** The 4'6" flat bottom depth makes it attractive for games and entertaining.
2. Elongated benches for fun and friends.
3. **Elegant.** Full-length entry steps.
4. Non-skid surface on the floor, benches, and steps.
5. Auto-cover ready design.

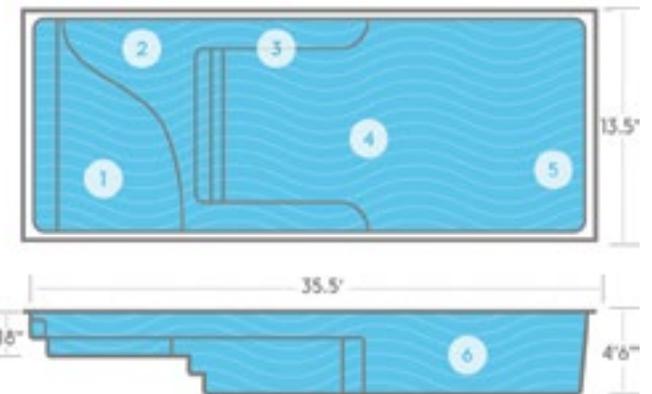

Lil Bob LX

Versatile Luxury

Pool Size

13.5' x 35.5'

- 1. Lounge.** Tanning ledge with 12"-depth. Perfect for ledge loungers.
- 2. Play.** Wading area is 18" in depth and is an ideal depth for toddlers or for a complete body soak.
- 3. Sit.** Wrap around benches will make you want to stay awhile.
- 4. Flat Bottom Pool.** All one-depth 4'6".
- 5. Auto-cover ready.**
- 6. Non-skid surface** on floor, steps, benches and tanning ledge.

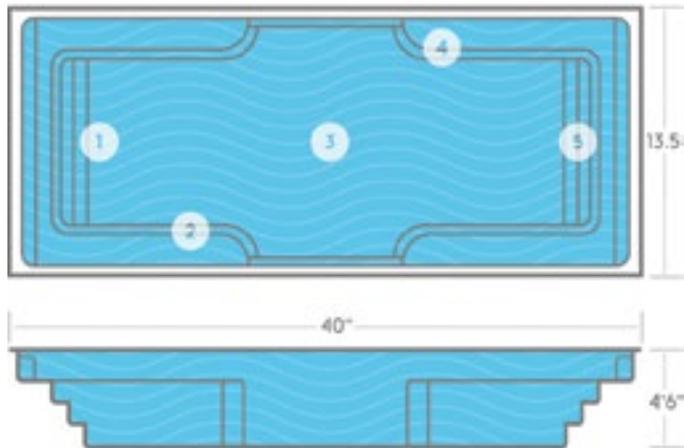

Spirit

All-In-One

Pool Size

13.5' x 40'

1. **Make memories.** Huddle around the full-length stairs with grandchildren and friends.
2. Indulge in a soak on the elongated benches.
3. **Sport pool depth.** Enjoy a spirited game with friends and family.
4. Auto-cover ready design.
5. Non-skid surface on floor, steps and benches.

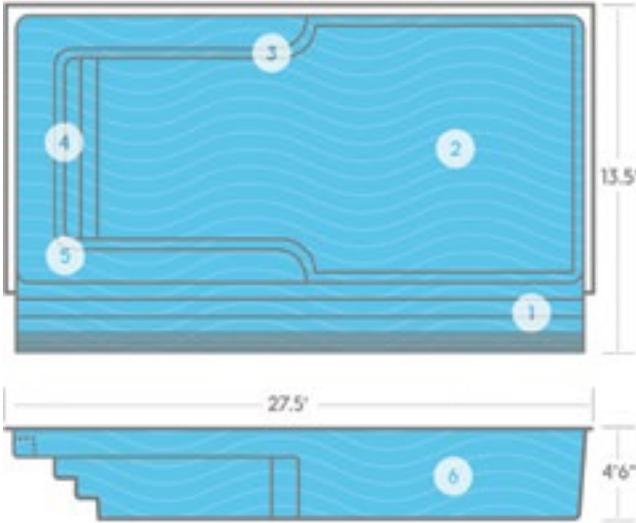

Infinity

And Beyond

Pool Size
13.5' x 27.5'

- 1. Endless. The built-in infinity edge will captivate pool-goers.
- 2. Fun. The 4'6" flat bottom depth makes it perfect for games and entertaining.
- 3. Elongated benches for fun and friends.
- 4. Full length entry steps.
- 5. Non-skid surface on the floor, benches, and steps.
- 6. Auto-cover ready design.

Titus

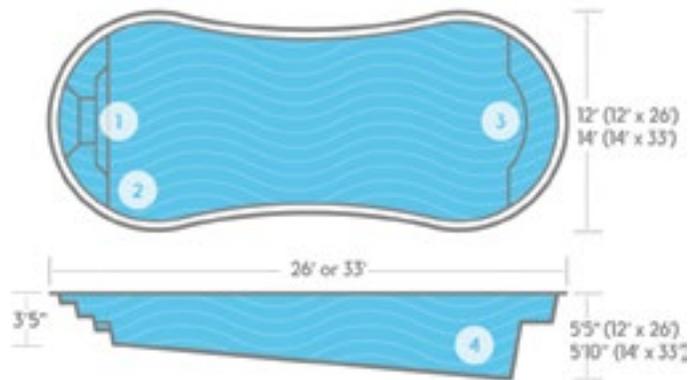

Relax and Unwind

Pool Sizes

12' x 26'

14' x 33'

1. Wide-entry steps with seats.
2. Non-skid surface on floor, benches and steps.
3. **Unwind.** Enjoy the beverage bench. Relax and sip your favorite summertime refreshment.
4. **Exercise.** Ideal depth for water aerobics.

Small Size Pools

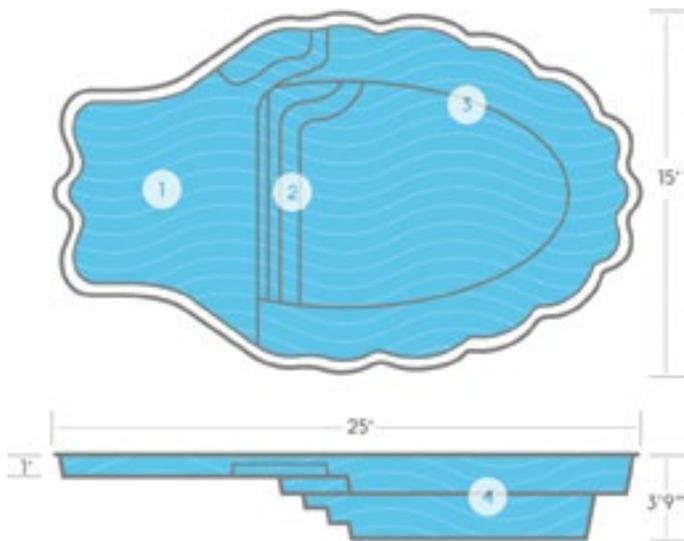

Pearl

An Exclusive Design

Pool Size

15' x 25'

- 1. Sun.** Enjoy the large 1'-deep shallow lounging area that is ideal for sunbathers and toddlers.
- 2.** Non-skid surface on floor, shallow lounging area, bench and steps.
- 3. Visit.** Enjoy the wrap-around beverage bench. It was made to enjoy with friends.
- 4. Soak.** Take a slow dip.

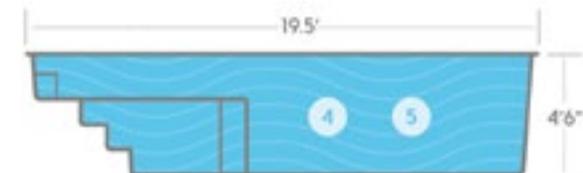

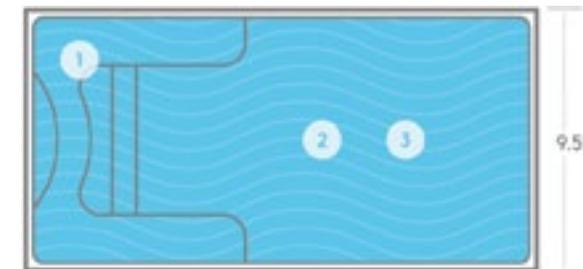

Sea Turtle

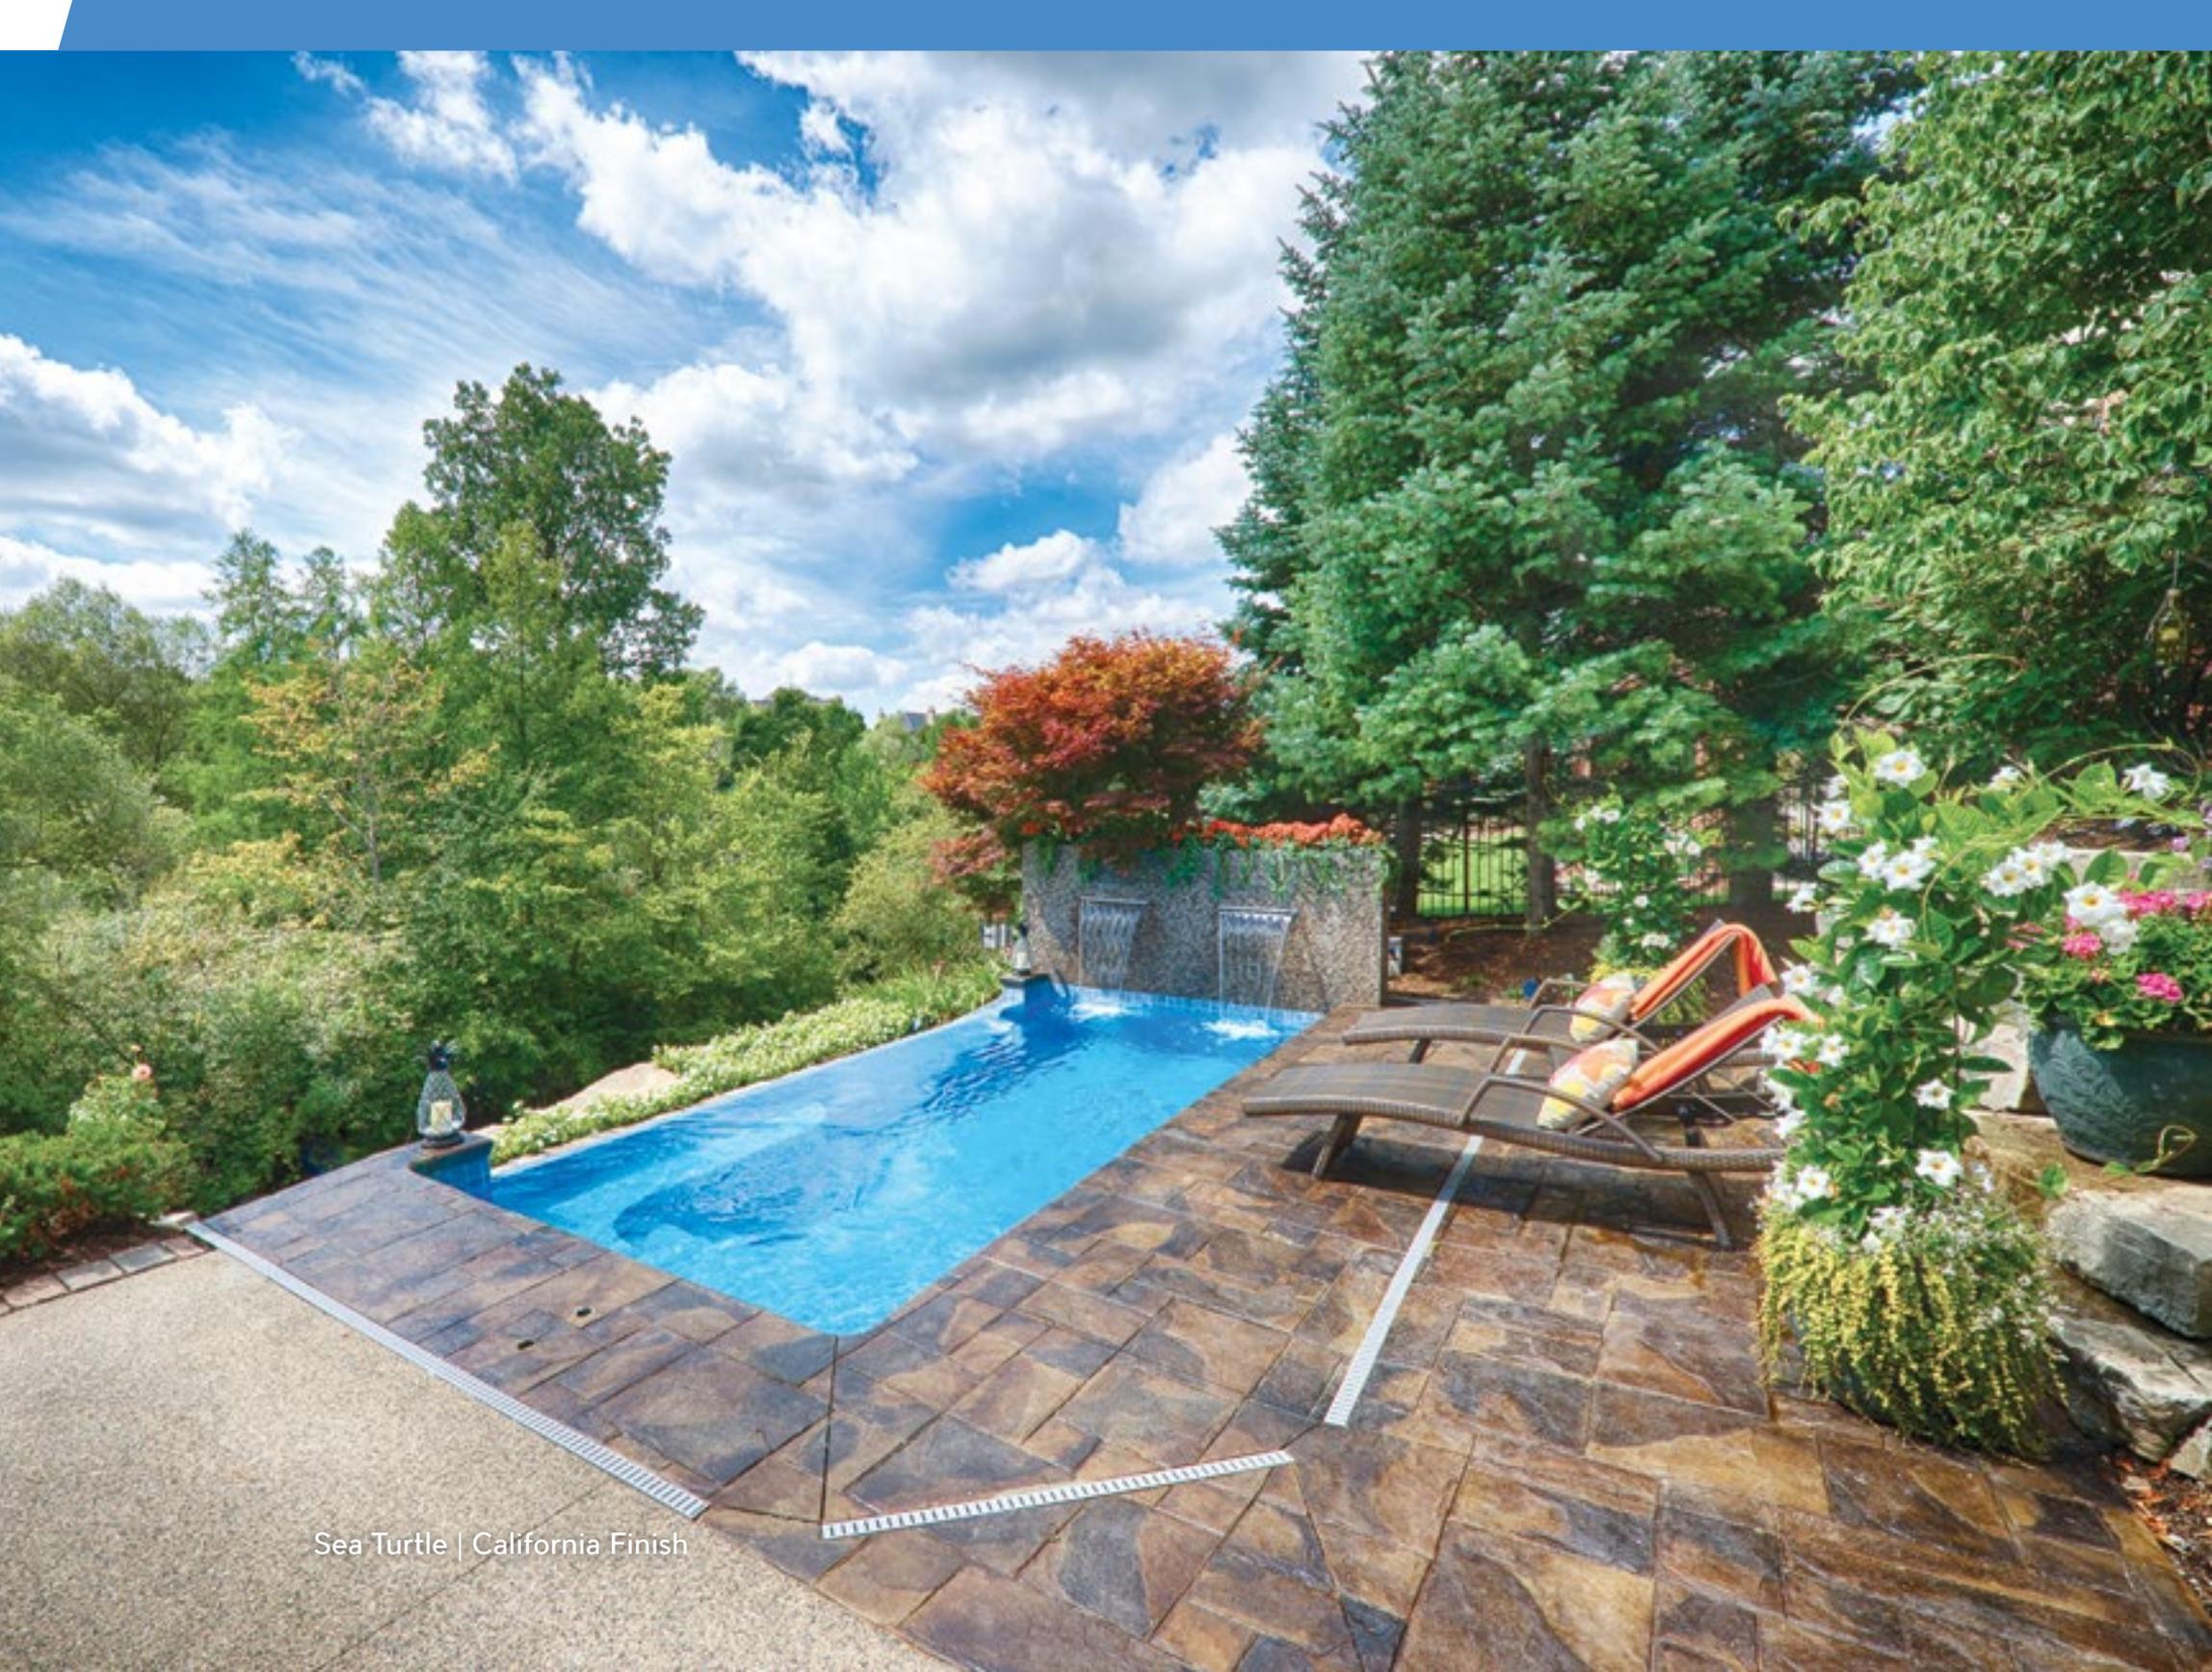

Slow Down and Enjoy

Pool Size

9.5' x 19.5'

1. Elongated benches can be outfitted with spa jets.
2. **Flat bottom.** The 4'6" depth makes it attractive for gathering guests.
3. Non-skid surface on the floor, benches, and steps.
4. Auto-cover ready design.
5. **Swim jet system-ready.** Ideal design to be equipped with a swim jet system like Badu®.

Sea Turtle | California Finish

Spas & More

Spas & More

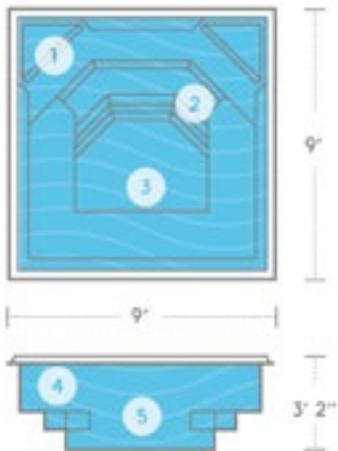

Spa

Add-on Luxury

Pool Size

9' x 9'

1. Accommodates up to seven people.
2. **Wellness.** Enjoy relaxing on these benches while bubbling water relieves tension and reduces stress.
3. Non-skid surface on steps, benches and floor.
4. Raised or flush construction application.
5. Auto-cover ready design.

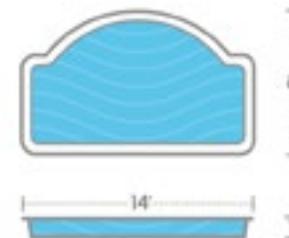

Wet Deck

An Elegant Water Feature

Pool Size

14' x 8'

1. Enjoy the large 1'-deep shallow lounging area. Ideal for sunbathers and toddlers.
2. Non-skid surface on floor.
3. Custom spillway options available.
4. Great for raised deck applications.

Wading Pool

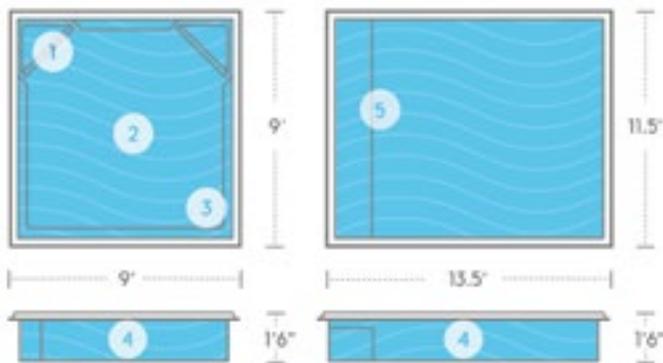

Splash and Play

Pool Sizes

9' x 9'

13.5' x 11.5'

- 1. Splash.** The 18"-depth makes this ideal for toddlers and pets to splash and play.
- 2.** Non-skid surface on the steps, benches and floor.
- 3.** Raised or flush construction application.
- 4.** Auto-cover ready design.
- 5.** Bench.

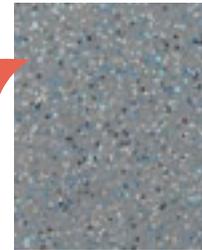

Features & Options

Get Your Color On

Choosing the Right Pool is Just the Beginning

Your pool's interior surface will determine your water color. There are two basic colors of water: blue and green. Brown, tan and green surfaces will produce a green water color similar to the same reflection that sand gives in the Caribbean. White, blue and gray interior surfaces will produce a blue water color. The different hues of blue and green are determined by the shades of the surface interior, landscaping, sunlight and water depth. Keep in mind the lighter pool surfaces have a higher light reflection value, and will enhance LED light visuals and depth perception while minimizing water line build-up.

Graphite

White

Sandstone

Diamond

California

Caribbean Sparkle

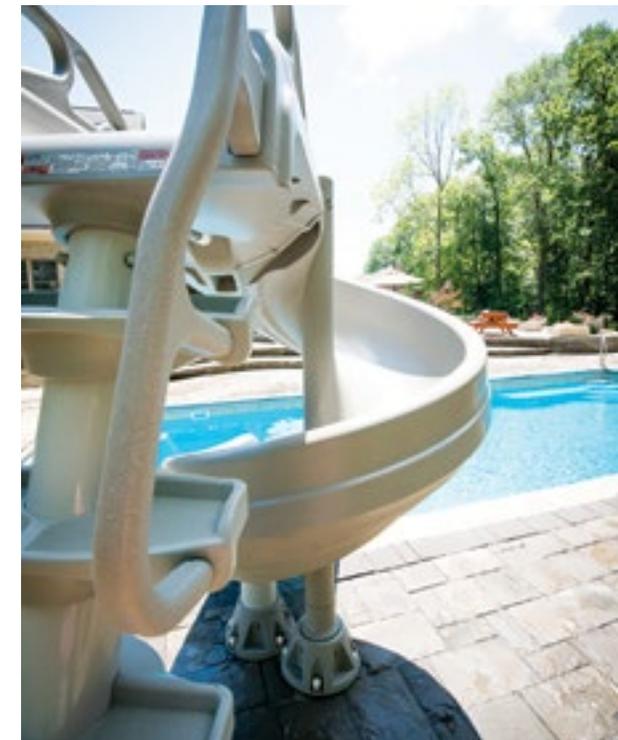

Maya

The final finished product may vary from the color samples on this page.

Fun Features

It is All About the Extras

Fun features like water slides, swim jets, water fountains, custom spillways, mood lighting, tile and infinity edges are all ways to incorporate your personal lifestyle into your backyard paradise. Features can help determine whether you are going to spend the weekend hosting elegant poolside soirees or unforgettable barbecues and parties. Maybe it's just the two of you, and you want to plan an atmosphere of bubbling water and relaxation. All the extras are easy to add to your fiberglass pool. Speak with your authorized dealer about your interests.

Get Covered Up

Automatic Pool Covers Provide Safety First

Automatic Pool Covers

Your beautiful pool will become your backyard sanctuary. Automatic pool covers help protect your paradise, along with those that matter most. In addition to the added security and peace of mind, owning an automatic safety cover will provide you with a more enjoyable pool ownership experience by reducing the amount of time, money and energy you will spend on pool maintenance. This is done by keeping debris out and chemicals inside.

Why Fiberglass?

Benefits of Fiberglass

Thursday Pools Will Provide You With the Best Fiberglass Pool Available and Be a Resource Long After Installation

Fiberglass pools are an icon of beauty that can rival any concrete or vinyl-lined pool construction, but the surface beauty is just the beginning of why you should choose a fiberglass pool.

Here are just a few reasons:

- Handcrafted in a factory-controlled environment.
- Less maintenance and chemicals equals more free time for you.
- High-end design features like tanning shelves and benches come standard.
- Low lifetime cost of ownership. No replastering, painting or liner replacement.
- Pet-friendly surface and designs with multiple entry and exit points.
- Smooth surface won't snag swimsuits or cause scratches on your skin.

Nine Layers Of Strength

The Composite Sandwich of Awesomeness

Let's think of a fiberglass pool shell as a huge sandwich. A sandwich is a composite, which basically means it's made up of different materials. Each material is applied in layers with the goal of giving the entire sandwich maximum flavor.

Such is the case with a fiberglass pool, which is a composite. It's manufactured in multiple layers with each layer serving to maximize the strength and durability of the entire structure. In other words, our fiberglass pool is thought of as a sandwich of strength. Hence, we affectionately refer to our unique manufacturing methodology as our, Composite Sandwich of Awesomeness.

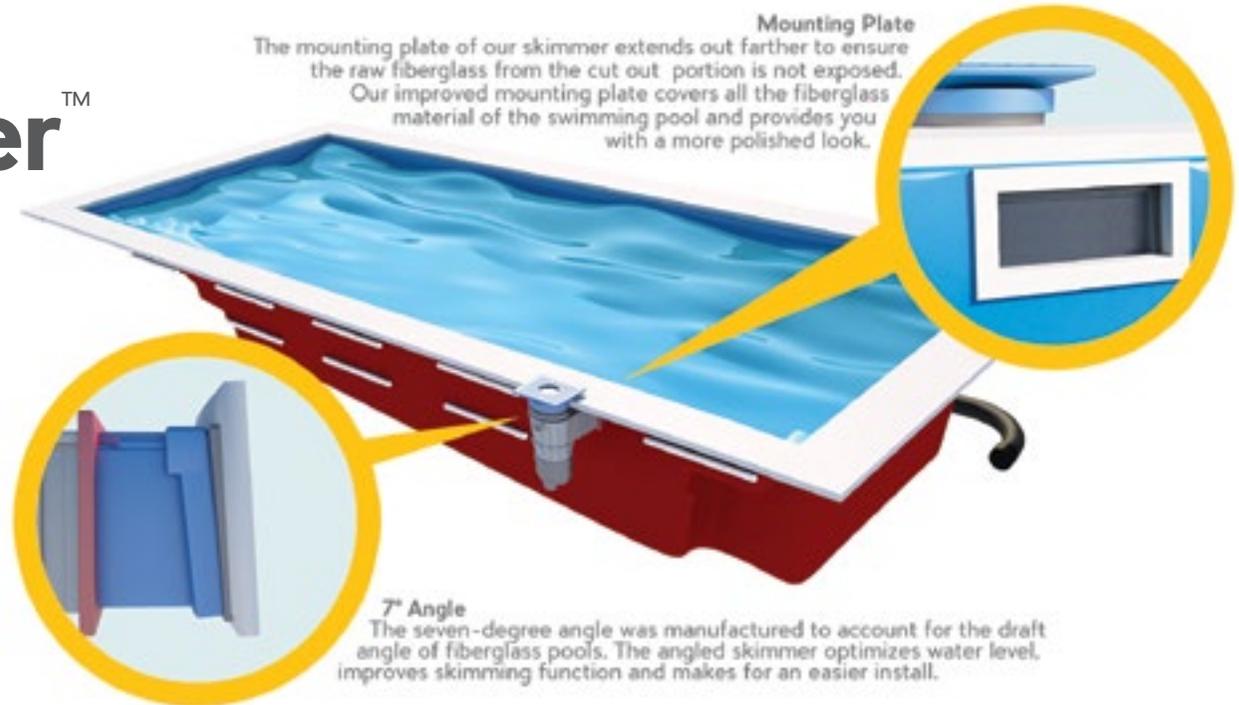

COMPOSITE
SANDWICH
OF AWESOMENESS

1. Gel coat.
2. Vinyl ester barrier coat.
3. First application of chopped fiberglass.
4. Second application of chopped fiberglass.
5. Hand-laid woven roving fiberglass.
6. Third application of chopped fiberglass.
7. Honeycomb core.
8. Fourth application of chopped fiberglass.
9. Fifth application of chopped fiberglass.

Lucky 7 Skimmer™

Thursday Pools LLC is excited to introduce the Lucky 7 Skimmer™, a skimmer explicitly designed for fiberglass pools. Our new skimmer design is manufactured with an improved 7 degree angle and mounting plate. The features of the Lucky 7 Skimmer™ make the skimmer easier to install, improves skimming function, optimizes water level, and provides a more polished look to a fiberglass pool.

Why Is It Important?

Traditional skimmers have long been an annoyance for fiberglass pool builders. Fiberglass pools are designed with sloping pool walls so that they can be pulled off the mold smoothly and nested for transportation. The slope of the pool walls range from five to ten degrees and make installing an ordinary skimmer difficult. Most skimmers on the market are created for vinyl pools or gunite pools and have been marketed for use on fiberglass pools. The only difference in the skimmers that are marketed for fiberglass pools is these skimmers are not packaged with gaskets.

Since the angle of the fiberglass pool wall is not considered, during installation, the skimmer must be adjusted using extension collars to reach their optimum skimmer function. Our Lucky 7 Skimmer™ will impact the entire fiberglass pool industry.

Features of Our New Lucky 7 Skimmer™ Design

7° Angle for Easy Installation

Our skimmer is manufactured to account for a five to ten degree draft angle most fiberglass pool manufacturer's use. The angled skimmer reduces the number of extension collars required to level

the skimmer and makes for an easier installation. The angle also allows the pool to reach its optimum water level.

Improved Mounting Plate

The lip that slips into the skimmer opening on a traditional skimmer mounting plate is not wide enough to cover thicker fiberglass pools. While this does not hurt the fiberglass pool, it does not complete the finished look that we have in mind. When we designed our fiberglass pool skimmer, we created the mounting plate to extend out farther to ensure the raw fiberglass pool is not exposed. Because our improved mounting plate is large enough to cover all fiberglass material, the mounting plate provides you with a more polished look.

Our Lucky 7 Skimmer™ is the only skimmer in the fiberglass pool industry manufactured specifically for fiberglass pools.

The Lucky 7 Skimmer™ Manufactured to Meet the Needs of Fiberglass Pools

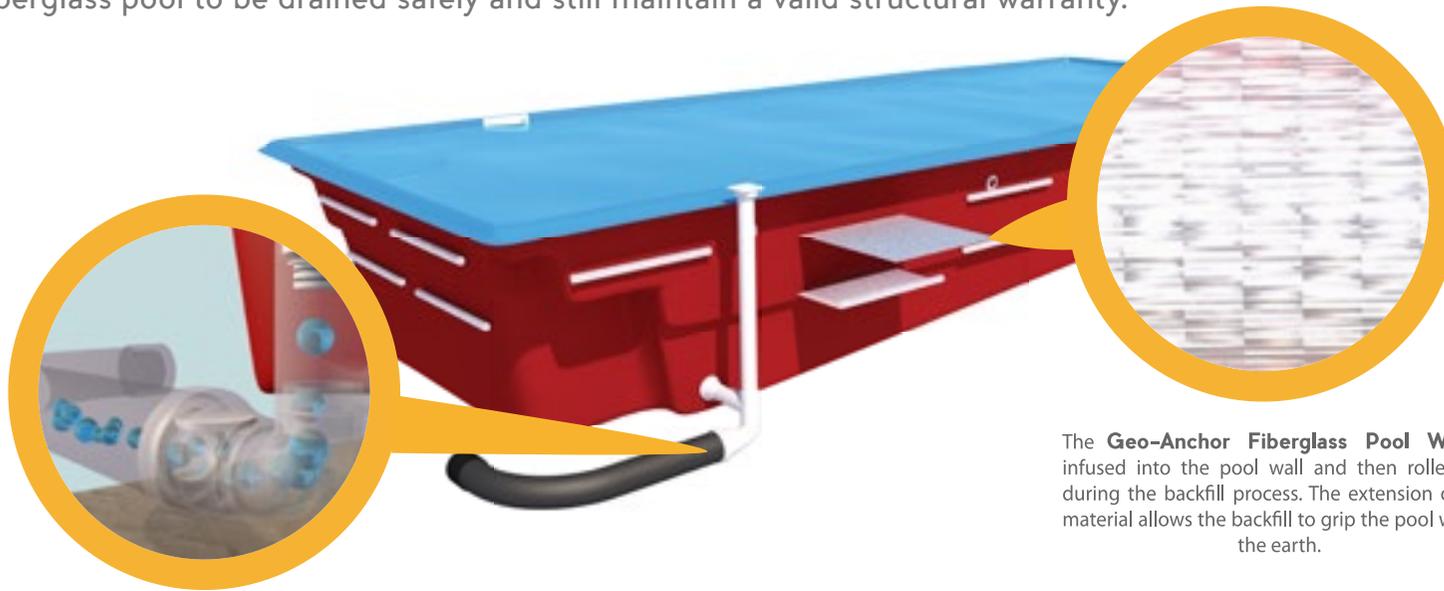

- No more additional extension collars
- No raw fiberglass exposed
- No installation hassle the traditional skimmer caused on fiberglass pools
- A faster and more efficient installation process

Fiberglass Pool Anchoring System™

Secure Your Investment

Thursday Pools developed the Fiberglass Pool Anchoring System™ (FPA) to help secure your investment and protect fiberglass pool structures from the risks of hydrostatic pressure caused by ground water. The system is made up of two innovative products; the patented Geo-Anchor Pool Wall and patent pending Geo-Hydro Valve. Together these innovative products have revolutionized the fiberglass pool industry by providing the only solution that allows a fiberglass pool to be drained safely and still maintain a valid structural warranty.

The **Geo-Hydro Valve** prevents fiberglass pools from floating by relieving ground water pressure.

The **Geo-Anchor Fiberglass Pool Wall** is infused into the pool wall and then rolled out during the backfill process. The extension of this material allows the backfill to grip the pool wall to the earth.

This system is the only fiberglass pool warranty that allows your fiberglass pool to be drained.

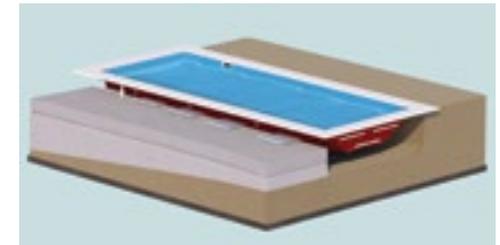

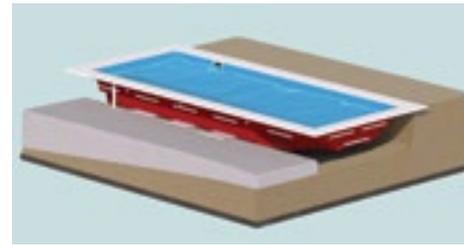

How does the FPA Work?

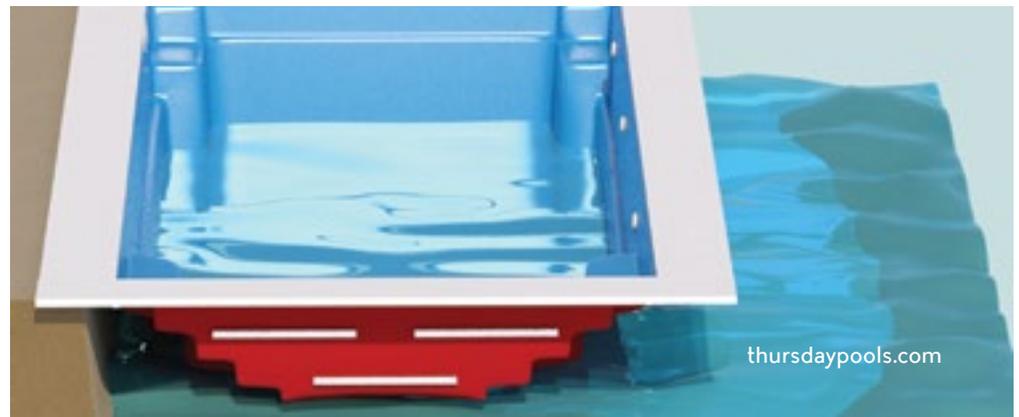

Our Fiberglass Pool Anchoring System prevents the risks of hydrostatic pressure through the combination of two components:

1. The **Geo-Anchor Pool Wall** (Patent No. US 9593455)
2. The **Geo-Hydro Valve** (Patent Pending)

The **Geo-Anchor Pool Wall** prevents wall movement or bulging. The specially formulated geotextile material is infused into the pool wall during manufacturing. It is then rolled up and secured for delivery. During the pool installation, it is rolled out into the backfill and covered, thus anchoring it to the earth. The extension of this material allows the backfill to grip the pool wall to the earth. By anchoring the walls to the earth, the walls of the fiberglass pool will resist movement or bulge providing the strongest fiberglass pool construction available.

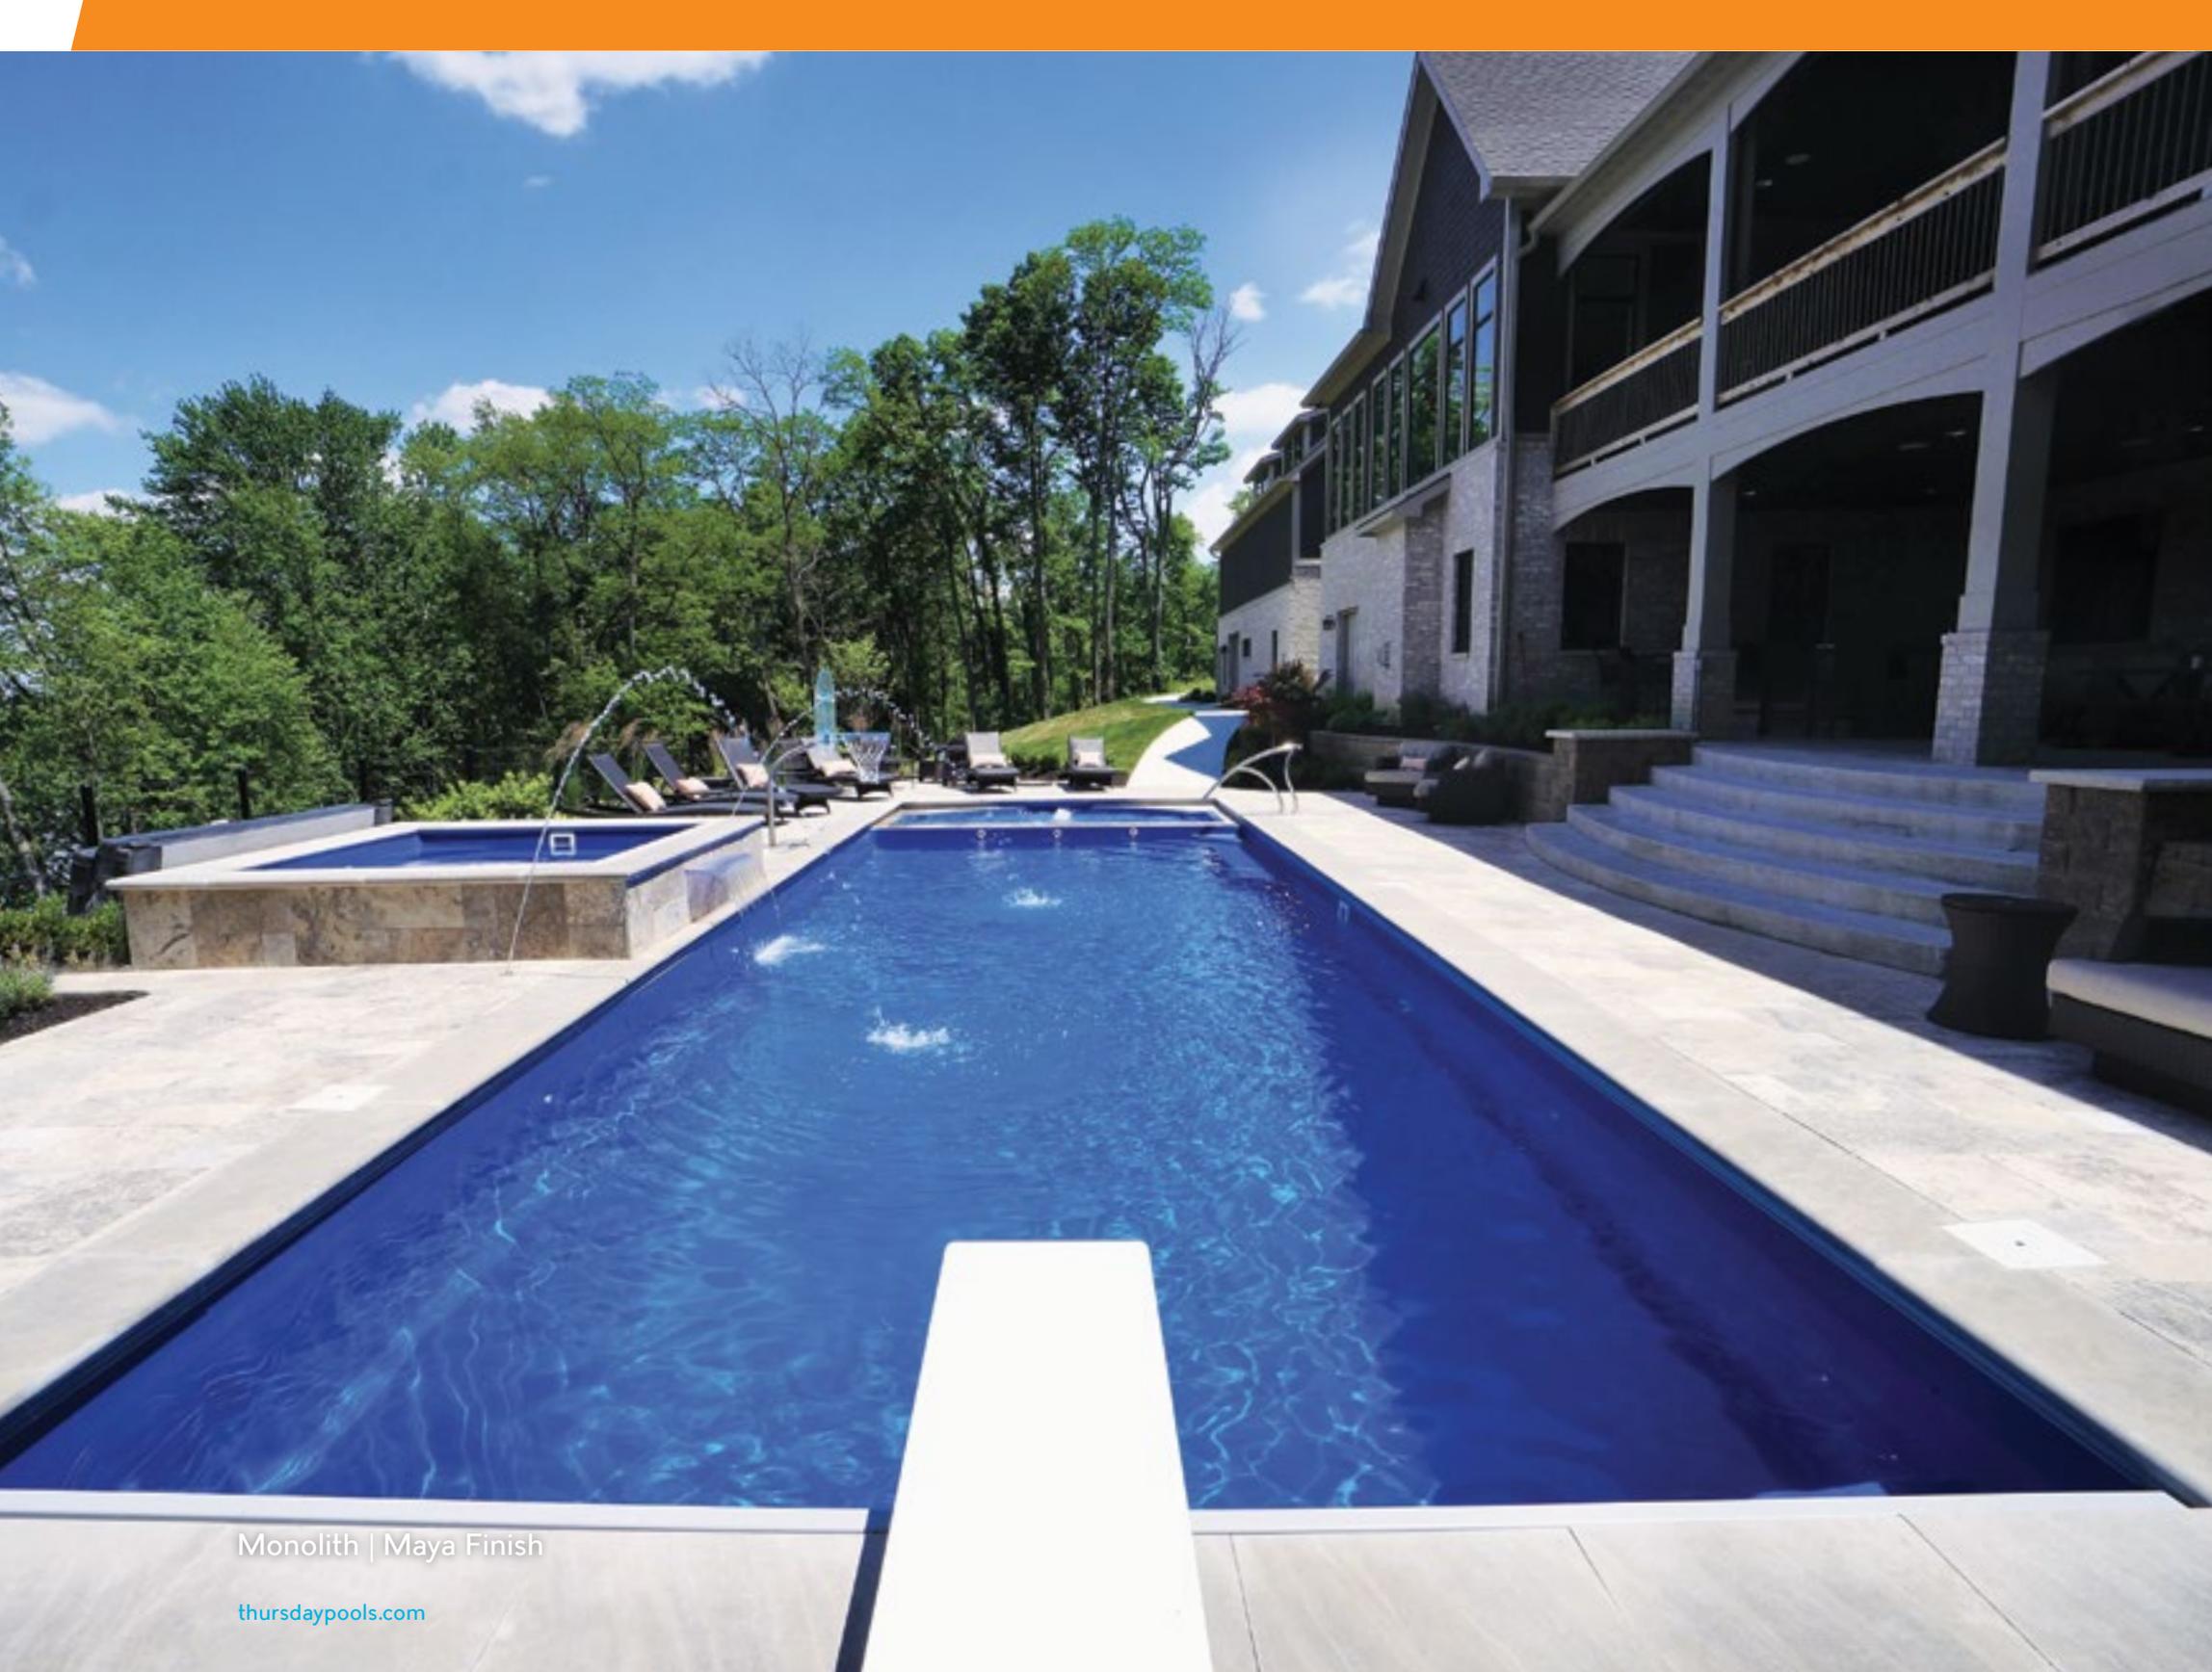

The **Geo-Hydro Valve** relieves outside groundwater pressure and prevents fiberglass pools from floating. If outside groundwater pressure exceeds internal pressure, the **Geo-Hydro Valve** will open and allow groundwater to enter the pool through a filter. This process allows the pressure to equalize and prevent negative effects associated with groundwater. The valve uses a piston and gland seal, so no special tools or scuba diving are required to access the valve. This valve is maintainable and accessible from the ground level. Its location on the lower side wall, and easy accessibility removes many of the common drawbacks that are associated with a standard hydrostatic valve.

Why Is It Important?

Ground water can cause havoc and have devastating effects on all inground swimming pools. Since its infancy, the fiberglass pool industry's solution to ground water has simply been to state that fiberglass pools cannot be drained. This is demonstrated by the fact that all fiberglass pool manufacturer warranties, until now, become null and void if the water level in the pool drops below the skimmer opening. While keeping the pool full does protect the structure, at some point every fiberglass pool will be drained, either deliberately or inadvertently. Without exception, every time the pool is drained or the water level is lowered there is some risk involved. Not happy with the status quo, Thursday Pools considered it a challenge to be able to provide you with a warranty that allows your fiberglass pool to be drained.

That challenge led to the invention of the Fiberglass Pool Anchoring System and the industry's only fiberglass pool warranty that allows your fiberglass pool to be drained. Our exclusive Fiberglass Pool Anchoring System eliminates risks accompanying hydrostatic pressure and provides the only means to safely lower or drain the water in a fiberglass pool should a need arise to do so.
