

Monolith

Got game? If you love to play all day long, the Monolith is the pool for you. Shoot some hoops or practice your cannonball; this pool is made for games and will get the whole family in on the fun. And the 15" warning ledge will let the little ones know if they're about to go "out of bounds."

Pool Size

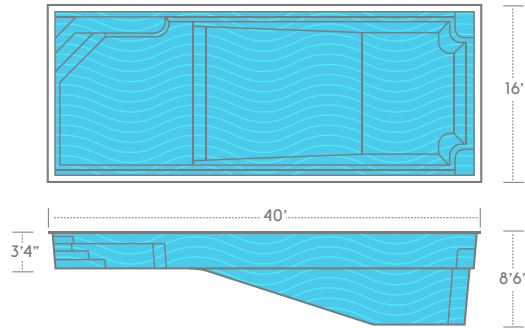

16' x 40' 8'6"

1. **Play.** Large flat-bottomed shallow-end is ideal for water games like basketball.
2. 15" warning slope. Warns children and adults alike that they are about to step away from the shallow-end.
3. The deep-end of the pool provides a courtesy ledge and dual, corner benches with a swim-out.
4. Splash. Make a splash into this Type 1 Diving Pool.
5. Swim lane.
6. Non-skid surface on floor, stairs and benches.
7. Auto-cover ready.

Monolith

16' x 40' 8'6"

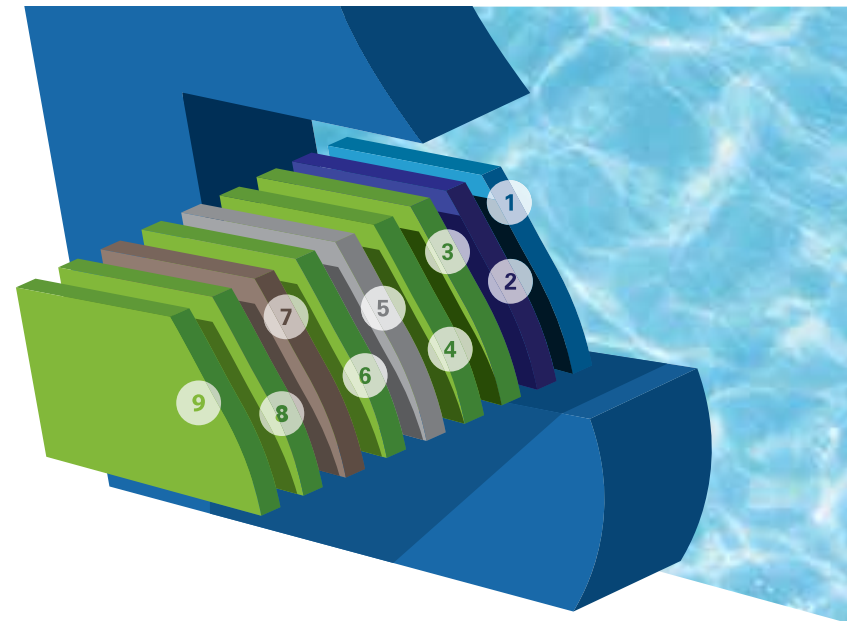

Nine Layers Of Strength

The Composite Sandwich of Awesomeness

Let's think of a fiberglass pool shell as a huge sandwich. A sandwich is a composite, which basically means it's made up of different materials. Each material is applied in layers with the goal of giving the entire sandwich maximum flavor.

Such is the case with a fiberglass pool. It's a composite. It's manufactured in multiple layers with each layer serving to maximize the strength and durability of the entire structure. In other words, our fiberglass pool is thought of as a sandwich of strength. Hence, we affectionately refer to our unique manufacturing methodology as our **Composite Sandwich of Awesomeness**.

1. Gel coat.
2. Vinyl ester barrier coat.
3. First application of chopped fiberglass.
4. Second application of chopped fiberglass.
5. Hand-laid woven roving fiberglass.
6. Third application of chopped fiberglass.
7. Honeycomb core.
8. Fourth application of chopped fiberglass.
9. Fifth application of chopped fiberglass.

*Handrail, rope with floats, and safety equipment may have been removed for photography purposes. Thursday Pools requires that all pool installations install a handrail and comply with all federal, state and local building codes.
